October: National Bullying Prevention Month

Lapwai School District enhanced whole child educational Pre-K-12 programs that develop positive human relations, self-discipline, good citizenship, self-esteem and success:

The Lapwai School District is currently implementing Positive Behavioral Interventions and Supports (P.B.I.S). P.B.I.S. is a best-practice framework for improving academic and behavioral outcomes for all students. The purpose of this program is to increase academic time-on-task by reducing problem behaviors. The students are explicitly taught how to be respectful, responsible, and safe in all locations on the school grounds. Our goal with PBIS and bully prevention is to create a safe learning environment to maximize learning for all students. The elementary is also implementing the P.A.T.H.S. curriculum (Promoting Alternative Thinking Strategies), which encourages the development of strong social skills, problem solving, positive character traits, and bullying prevention, all which support academics. These research-based tools for teachers minimize learning interruptions and prevent bullying and other behaviors with strategic procedures and prevention techniques. Positive character traits and citizenship are also recognized in both schools with rewards, celebrations, and assemblies.
